## RETAIL PHARMACIES AND Retail<sup>90</sup>Rx

**Q** What can I expect from a pharmacy network?

A well-balanced pharmacy network should provide members with the convenience of broad access, while maintaining competitive discounts for brand and generic medications.

### FINDING A NETWORK PHARMACY

Our national retail pharmacy network includes more than 58,000 chain and independent retail pharmacies, so you're sure to find one close to home or work.

To help you find a participating pharmacy in your local area, we've included a listing of network chain stores on the following pages

To locate a specific pharmacy in our network, visit [www.innoviant.com](http://www.innoviant.com). Simply type in your ZIP Code to get a list of participating pharmacies, including their locations and phone numbers. For directions, click on the map icon. If you need help locating a pharmacy, contact Innoviant customer service at 877-559-2955.

### USING YOUR ID CARD

You can use your prescription ID card at any network pharmacy. Just present your card to the pharmacy and they will enter your claim. The pharmacy will apply the benefit amount applicable to your plan for the prescription product purchased. If the charges are more than the benefit amount, the pharmacy will collect the balance from you.

If you present your card at a non-participating pharmacy, or if other circumstances require a cash purchase, you must pay 100 percent of the retail price for your prescription. For reimbursement on your eligible prescriptions, submit a claim reimbursement form (available from your benefit manager or download one from

our Web site, [www.innoviant.com](http://www.innoviant.com)) and the prescription receipt directly to us. Your reimbursement amount is based on the participating pharmacy's contracted rate less your co-payment, and will be subject to your benefit plan's rules and restrictions.

### Retail<sup>90</sup>Rx PROGRAM

The Innoviant Retail 90 Rx program allows you to receive a three-month supply of your medication at more than 48,000 participating retail pharmacies. Like a traditional mail-order service, you can avoid refilling a prescription every month while still having the opportunity to receive individualized counsel from a trained pharmacy professional in your neighborhood. Consult your member benefit booklet for your plan's co-payment structure.

Some medications may only be dispensed for the exact quantity as written by your physician—so have your physician prescribe a 90-day supply. Other drugs may have a dispensing limit controlled by law which may be less than 90 days and are not eligible for this program.

For more information, contact us at 877-559-2955.  
We're available 24 hours a day, seven days a week.  
Or visit us at [www.innoviant.com](http://www.innoviant.com)
